

## Your Life For Money

Will you trade your life for money?  
They say it's just a little  
bit of poison, nothing you can't handle.  
You might lose a hand, and keep the middle finger.  
It will hurt a bit at first, but the pain is going to linger.  
When you trade life for money.

How far does the water flow?  
How deep does the poison go?

Will you sell your blood to vampires,  
who dig up the wilds,  
who spread contagion building empires,  
who solve their problems by writing out cheques?  
They look you in the eye while they measure your neck.  
When you sell blood to vampires.

How far does the water flow?  
How deep does the poison go?

Will you trade your life for money,  
to drive a big truck,  
pay for your funeral, and keep pushing your luck  
with the billionaires who make holes in the ground?  
They got a grave dug for you when you finally fall down.  
When you trade your life for money.

How far does the water flow?  
How deep does the poison go?  
How far does the water flow?  
How deep does the poison go?
